

What does FAO do to promote responsible agrifood supply chains?

Supporting multi-stakeholder dialogue on Responsible Business Conduct in the Agricultural Sector

Examples:

- CCP items and events on sustainable agricultural supply chains
- World Banana Forum
- Conference on responsible tropical fruit value chains
- OECD-FAO Multi-Stakeholder Advisory Group

OECD-FAO Multi-Stakeholder Advisory Group

Meets 1-2 times a year (virtual and hybrid)

The AG includes:

- ❖ Governments
- ❖ International Organizations
- ❖ Business and business associations
- ❖ Investors
- ❖ Industry and multi-stakeholder initiatives
- ❖ Certification schemes
- ❖ Civil society
- ❖ Academia

The AG's role:

- **Sharing technical knowledge and experience**
- **Development and advancement of strategic priorities**
- **Guidance on projects and outputs**
- **Supporting partnerships**
- **Facilitate engagement with international forums**

Responsible Tropical Fruit Supply Chains

FAO's [Responsible tropical fruit value chains project](#) aims to address sector challenges in **pineapple** and **avocado** commodity production and trade by:

- *Supports businesses in managing risks and improve the sustainability of their operations and those of their suppliers*
- *Building a network of committed industry actors*
- *Providing technical guidance on sustainability issues based on rigorous analysis of the sector*
- *Generating knowledge on practical application of the OECD-FAO Guidance and market expectations on sustainability in trade*
- *Supported by the Government of Germany*

Responsible Banana Supply Chains: the World Banana Forum

**WORLD
BANANA
FORUM**

- The [World Banana Forum](#) is a global multi-stakeholder platform bringing together main actors along global banana supply chains to foster collaboration and share best practices on sustainable production and trade
- Includes producers, exporters, importers, retailers, governments, trade unions, civil society organizations and research institutions
- Gathers different partners to facilitate change in the business-enabling environment, with a focus on encouraging key development and sustainability in the banana sector (ex. climate change, living wages, decent work, gender equity, etc)
