WG 1: Diversification (en) - Weltsaal

Beside staples like rice, maize and wheat, an adequate nutrition also needs vegetables, fruit, legumes, oils and animal-based foods. What science-based approaches exist for increasing diversification both in what is produced and in what is actually consumed? What challenges and innovative solutions arise during implementation? And how can this help to strengthen the resilience of the agricultural sector?

Facilitator: Khaled ElTaweel, Chair of OEWG on Nutrition (CFS)

Rapporteur: Gina Kennedy, Bioversity International

Inputs:

• Tshilidzi Madzivhandila, Director Policy and Research, FANRPAN – Food, Agriculture and Natural Resources Policy Analysis Network

• Katja Kehlenbeck, Expert on neglected underutilized crops, Fachhochschule Rhein-Waal
• Mamadou Diop, Action Contre La Faim (ACF)

WG 2: Processing (de, en, fr) – Stresemann-Saal
Food should be convenient to prepare and have a long shelf life without losing its nutritional value. What challenges arise from these requirements in respect of processing and preparation particularly in developing countries? How can we ensure that food is nutritionally beneficial, safe and affordable, whether consumers are eating at home or out of home? What role does the increasing level of urbanisation play?

Facilitator: Florence Tartanac, Group Leader Market Linkages and Value Chains, ESN, FAO
Rapporteur: Isa Álvarez, URGENCI (International Network for Community supported Agriculture)
Inputs:
• Shakuntala Haraksingh Thilsted, Research Program Leader, Value Chains and Nutrition, WorldFish, CGIAR,
• Rosemonde Touré, Entrepreneur for dried fruits, Burkina Faso
• Bendantunguka Tiisekwa, Department of Food Science and Technology, Sokoine University of Agriculture

WG 3: Women’s Empowerment (de, en, fr) - Europasaal
Women account for the majority of the agricultural workforce in developing countries and emerging economies. They are also responsible for the nutrition of children and families. They have to contend with a very high workload and their own nutrition is often neglected. Changes in society take a lot of time. Nevertheless, what possibilities exist to strengthen women in their roles here and now and thus ensure better nutrition for everybody?

Facilitator: Marc Wegerif, Freelancer, Food system and women’s land rights expert
Rapporteur: Malyn Ando, Asian Pacific Resource and Research Center for Women (ARROW)
Nutritional knowledge and skills regarding existing foods, their production, storage, processing and preparation are essential for achieving an adequate nutrition. This is true for both producers and consumers within the whole food system. What form must the nutrition education of caregivers, parents, children, teachers, instructors, trainees and farmers take to ensure that the knowledge acquired is put into practice?

Facilitator: Ana Islas Ramos, Nutrition Education and Consumer Awareness Group, ESN, FAO

Rapporteur: Yatziri Zepeda Medina, Alianza por la Salud Alimentaria

Inputs:
- Stacia Nordin, Nutrition Education Specialist - Feed the Future Malawi Strengthening Agriculture & Nutrition Extension Services Activity
- Bruno Prado, AS-PTA (Assistance and Service for Alternative Agriculture Projects), Brazil
- Mohammad Ali Reja, Farmer Nutrition Schools, SPRING, USAID
